Houdini Designer / Artist (f/m/d),
Houdini FX, junior to mid-level
Berlin, Full-time

Become an equal part of our design-driven team at [onformative](#), where we highly value collaboration and believe in the power of the creative hivemind: We are looking for a Designer with a focus on HoudiniFX to join our design team in Berlin full-time and work on exciting projects that range from generative branding, real-time experiences to large-scale media installations.

Since our work on self-initiated and commissioned projects across a variety of media allows us to follow an experimental, explorative and open design approach, we are looking to fill this role with you, a designer, who shines in creating style- or concept frames and in translating briefs and narratives into visual worlds.

While technical proficiency is always welcome, we are particularly looking for candidates with a background in art and design, as well as a strong sense for visual aesthetics. Ideally, you bring a working experience of three years in a junior position within the field, where you have established the ability to work independently within the creative process. Your standard set of tools are Houdini FX, Redshift or Octane. We'd love to learn why you think we could be a good match and are looking forward to seeing your portfolio that shows your approach to exploring the boundaries of art, design and technology.

Requirements overview

- three years of working experience as junior or mid-level Houdini Artist
- background in the field of art & design
- a moving images portfolio, showing your strongest work
- passion for moving image and visual storytelling
- ability to approach creative challenges from conceptual, technical and aesthetic aspects
- curiosity to challenge the boundaries between art, design and technology
- solid knowledge and technical skills in Houdini FX, Redshift or Octane
- ambition to grow and keep learning
- you enjoy working in a creative team

Terms & how to apply

This role is available immediately and preferred to be at our studio in Berlin. However, a remote option could be possible after a period of onboarding on-site. Please email your application including a moving images portfolio and/or web links, CV to job@onformative.com.

We look forward to hearing from you!
